

STTC post 2020

EUROPEAN SUSTAINABLE TROPICAL TIMBER COALITION

- Target: 50% of the European tropical timber imports coming from responsibly managed forests by 2025

Data & Knowledge

- Monitoring report
- Data portal with TTFs
- Info and knowledge hub
- Carbon agenda

Sector Alignment

- Convene key groups + NGOs
- Powerful network
- Shared position & statements
- Lobby and advocacy

Public-Private Partnership

- Drive private sector commitments and actions
- Pre-competitive coalition
- Leverage finance

Collaboration with ATIBT & Probos
A global approach and linkage to SourceUp

IDH's tropical timber work in Brazil

- The IDH-CIPEM partnership for benchmarking SISFLORA and designing a compliance model
- The SISFLORA-MT System Action Plan
 1. ensure the alignment of SISFLORA with the EUTR and the European community;
 2. establish the rules for an independent audit;
 3. lower the risk of misuse and fraud;
 4. ensure greater transparency of information about the System;
 5. elect Sustainable Forest Management rules as a standard for the Amazon.
